1 Aim of the package

The default citation styles `verbose-trad1`; `verbose-trad2`; `verbose-trad3` use the *op. cit.* form in order to have shorter reference when a title have been already cited.

However, when you cite two entries which share the same `booktitle` but not the same title, the *op. cit.* mechanism does not work.

For example we obtain the following example:

Actes de Barnabé. In: *Écrits apocryphes chrétiens*. Trans. and annot. by Enrico Norelli. Vol. 2. Bibliothèque de la Pléiade 516. Paris: Gallimard, 2005, pp. 627–642

Pseudo-Hippolyte. *Index apostolorum discipulorumque Domini*. In: *Prophetarum vitae fabulosae indices apostolorum discipulorumque Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata*. Ed. by Theodor Schermann. Leipzig: Teubner, 1907, pp. 163–170

Actes de Tite. In: *Écrits apocryphes chrétiens*. Trans. and annot. by Willy Rordorf. Vol. 2. Bibliothèque de la Pléiade 516. Paris: Gallimard, 2005, pp. 609–615

Pseudo-Épiphane. *Index apostolorum discipulorumque Domini*. In: *Prophetarum vitae fabulosae indices apostolorum discipulorumque Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata*. Ed. by Theodor Schermann. Leipzig: Teubner, 1907, pp. 107–126

While we would like to obtain:

Actes de Barnabé. In: *Écrits apocryphes chrétiens*. Trans. and annot. by Enrico Norelli. Vol. 2. Bibliothèque de la Pléiade 516. Paris: Gallimard, 2005, pp. 627–642

Pseudo-Hippolyte. *Index apostolorum discipulorumque Domini*. In: *Prophetarum vitae fabulosae indices apostolorum discipulorumque Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata*. Ed. by Theodor Schermann. Leipzig: Teubner, 1907, pp. 163–170

Actes de Tite. In: *Écrits apocryphes chrétiens*. Trans. and annot. by Willy Rordorf. Vol. 2. Op. cit., pp. 609–615

Pseudo-Épiphane. *Index apostolorum discipulorumque Domini*. In: *Prophetarum vitae fabulosae indices apostolorum discipulorumque Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata*. Ed. by Theodor Schermann. Op. cit., pp. 107–126

The aim of this package is to enable such abbreviation.

2 Use

The `biblatex-opcit-booktitle` package must be loaded after the `biblatex` package. You must use a `verbose-trad` citation style. For example:

```
\usepackage[bibstyle=verbose,citestyle=verbose-  
↪ trad1,citepages=omit]{biblatex}  
\usepackage{biblatex-opcit-booktitle}
```

In order to know when two entry share the same `booktitle`, you must use the `crossref` mechanism of `biblatex`. In the case of the previous example, we used:

```
@book{Pleiade2,  
  Address = {Paris},  
  Number = {516},  
  Publisher = {Gallimard},  
  Series = {Bibliothèque de la Pléiade},  
  Title = {Écrits apocryphes chrétiens},  
  Volume = {2},  
  Year = {2005}}
```

```
@bookinbook{Pleiade_Barnabe,  
  Annotator = {Enrico Norelli},  
  Crossref = {Pleiade2},  
  Pages = {627-642},  
  Title = {Actes de Barnabé},  
  Translator = {Enrico Norelli}}
```

```
@bookinbook{Pleiade_Tite,
```

```

Annotator = {Willy Rordorf},
Bhg = {1850z},
Crossref = {Pleiade2},
Pages = {609-615},
Title = {Actes de Tite},
Translator = {Willy Rordorf}}

```

```

@book{Schermann1907,
  Address = {Leipzig},
  Editor = {Theodor Schermann},
  Publisher = {Teubner},
  Title = {Prophetarum vitae fabulosae indices apostolorum discipulorumque
↪ Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata},
  Year = {1907}
}

```

```

@bookinbook{Pseudo-Hippolyte,
  Author = {{Pseudo-Hippolyte}},
  Crossref = {Schermann1907},
  Pages = {163-170},
  Title = {Index apostolorum discipulorumque Domini}}

```

```

@bookinbook{Pseudo-Epiphanie,
  Author = {{Pseudo-Épiphanie}},
  Crossref = {Schermann1907},
  Pages = {107-126},
  Title = {Index apostolorum discipulorumque Domini}}

```

There is not other thing to do!

The feature works with these entrytypes: @inbook, @incollection, @inproceedings, @bookinbook.

If you define a shorttitle in the main entry, it will be used instead of the full title when we need an abbreviated form.

2.1 Limits

We have not implemented options to use abbreviation like *ibid*, because we want to have not ambiguous abbreviated forms.

If you have redefined the cite bibliographic macro, you must changes:

```

\usebibmacro{cite:full}%
  \usebibmacro{cite:save}

```

by:

`\usebibmacro{cite:test:ifrelated}`

2.2 Customization

You can change the `inbook:rel:verbose-trad-xxx` bibliographic driver to customize the way the main title is printed, `xxx` meaning 1, 2, or 3, depending of you specific citation style.

3 Credits

This package was created for Maïeul Rouquette’s phd dissertation¹ in 2015. It is freely inspired by Paul Stanley code.² It is licensed on the *LaTeX Project Public License*.³

All issues can be submitted, in French or English, in the Framasoft issues page⁴.

4 Change history

1.3.0 2016-03-27

Add *op. cit.* also for `verbose-trad1`.

Set the entry type for the *op. cit.* as the entry type of the main entry.

1.2.0 2015-10-18

Fix bug with internal hyperref.

Fix shorter form to be consistent with `verbose-trad1` and `verbose-trad2`.

Use short form of name (*idem* or just last name, depending of style).

Change bibliography driver name. If you have customized your bibliographic driver, you should adapt name: `inbook:rel:verbose-trad-1` or `inbook:rel:verbose-trad-2` or `inbook:rel:verbose-trad-3`.

1.1.1 2015-07-02

Fix spurious space.

1.1.0 2015-06-18

If defined, use the `shorttitle` field of the main entry.

1.0.2 2015-06-05

Wrap “*op. cit.*” in `\mkibid`.

⁴<https://git.framasoft.org/maieul/biblatex-opcit-booktitle/issues>.

1.0.1 2015-06-03

Correct order of name's part (first name / last name).

1.0.0 2015-05-31

First public release.
