## 1  Setting up Semantic References

**In a nutshell**: How to set up semantic references? Easy, just use the `omgroup` environment from the `omdoc` package.

## 2 Testing the References

Now, we test the referencing mechanism

**Internal Referencing**: First single refrences: Section 1 and Section 2, and then compound ones: Section 1 and Section 2

**External Referencing**: First single references: [IDC, Section 1] and [IDC, Section 2]
